

# free range learning

We take learning outside the classroom to make Education for Sustainable Development exciting and school grounds greener.

## Our services include:

- Expert support to help you keep chickens and grow food in your playground
- Interactive curriculum-linked sustainability workshops and assemblies.

- Hatching projects: explore lifecycles and animal care as you hatch chicks in your own classroom.
- Staff training that equips you with the skills and confidence to deliver safe, relevant and creative ESD and out of classroom learning.
- Support to work towards your eco schools award.

"Hannah is the perfect mix of enthusiasm, knowledge and professionalism. She fully engages the children with her activities, all tailored to the curriculum, and what she doesn't know about chickens isn't worth knowing."

Jo Manby,  
Farm Manager at  
Vauxhall City Farm
